All,

Attached is draft three protocol and selected attachments dated Feb 24, 2003 for the upcoming 10-day Menthol study for your review. I have incorporated all changes discussed with Jan Oey last Friday (Feb 21). I have also attached a revised ICF for final review.

The IRB date for this study is now March 7. Therefore, I need all documents (protocol, attachments, ICF) final and ready for submission by this Friday, Feb 28, 2003. In order to make these deadlines, please assure that I have comments from legal by Thursday, Feb 27, 2003 at the latest.

Thanks,

Michael F. Szwanek, Pharm D., MBA

Subject: MEETING

Qiwei,

I'd like to suggest that a meeting be held with you, Julia and myself to discuss the most efficient process to handle data request needs as it pertains to the Accord studies. As Barbara and Paul were putting the SDS together it seems that they were going from one to the other of us for information. Oftentimes, I would receive a request for information secondhand where I could have easily provided the information if presented to me.

It seems to me that Barbara and Paul should not have had to run around seeking information from several different sources. The process to obtain information should be clear and efficient and should be known throughout CE.

Please let me know your thoughts and we can then plan the meeting.

Also, I will be out of the office most of Thursday and all day on Friday.

With best regards,
Bettie
